1. Wismut A.G. Object 30 is located in Ditttrichshütte, Landkreis Badolsted, and is composed of the following five shafts:

Main Shaft No.	345	120 meters deep
Shaft	No. 28	80 meters deep
Shaft	No. 78	60 meters deep
Shaft	No. 53	60 meters deep
Shaft	No. 55	Depth unknown

2. The main administration of Object 30 is located in Rudolstadt; the administration building lies on the outskirts of Rudolstadt on the road to Hildesburg. Administrative personnel amounts to about 500 men of which 60% are Russian. Chief of Administration is an unidentified Russian major who is 40-45 years old.
3. Approximately 4,000 men are employed at Object 30. Members of the garrison are lodged in private quarters in surrounding villages; they are brought to and from work in buses. There are three shifts a day at the following plants:

Shift 1	0600 - 1400
Shift 2	1400 - 2200
Shift 3	2200 - 0600

4. The uranium ore which is mined is loaded onto trucks and transported to the ore washing plant in Blankenburg. For the most part the truck drivers are Russians. The truck park for Object 30 is located near the main administration building in Rudolstadt. Object 30 has at its disposal 400 trucks, mostly dump trucks, and about 100 buses.

5. Object 30 is guarded by 30 Russian soldiers. The check point is located at the entrance to the object and the control of passes is very strict. At the end of a shift the workers are obliged to report to a room which is equipped with electronic control lamps. If a worker has any ore on his person the lamps light up, and a thorough body search of the worker is conducted by a Russian guard unit.

6. The location of other Wismut projects is as follows:

Object 29 -	Neustadt/Orla
Object 2 -	Oberschlema/Sachsen
Object 8 -	Johanngeorgenstadt
Object 86 -	Rudolstadt, with shafts in Saalfeld, Probstzella and Gräfenthal
